Instructions

The **easytest** miniPAT comes with simple instructions on the rear label. Portable appliance testers do not get any easier than this!

As with any portable equipment the miniPAT should be used in conjunction with an RCD. No responsibility or warranty for damage to the equipment or the operator will be considered if this practice is not followed.

All this for only \$690* + GST & delivery when you buy direct from **easytest** Pty Ltd

*RRP

*Wholesale prices upon application

*Patent Pending

**All testing must include a thorough physical and visual inspection for mechanical damage.*
